PEGASUS SERIES

PEGASUS 1200

The Pegasus 1200 is a non-heated, multi-surface extractor designed to deliver high-performance results on various hard surface materials. Easy to use and engineered for maximum productivity, it features an adjustable 400–1200 PSI pump that ensures powerful cleaning and reduced drying times. Equipped with an auto-fill system and a 15 gallon per minute auto-dump capability. These features allow crews to operate continuously and cover large areas, completing more square footage in less time. Purchase the machine on its own or as a complete package with the Revolver Hard Surface Tool and a 25’ hose set.

MACHINE SPECIFICATIONS
