

REVOLUTION

HARD SURFACE TOOL

The Revolution is a feature rich, tile & grout cleaning tool that provides smooth operation while cleaning hard surfaces.

At a lightweight of ONLY 13 lbs., the Revolution reduces operator fatigue. A rugged, durable design insures long life and it works on even and uneven surfaces like concrete, stone, and tile and can be used with a portable extractor or a truckmount extractor.

Time saving features like an inline filter catches dirt before it can clog the spray tips preventing costly downtime. The T-handle design allows side to side as well as front to back operation.

REVOLUTION

HARD SURFACE TOOL

Features & Benefits:

- 90-degree inlet swivel rotates 360 degrees — always keeping the hose out of the way even when cleaning alongside a wall
- An inline filter catches dirt before it has a chance to clog tips — works great even with machines that don't have good filtration
- Easy pull trigger with Safety
- Recovery hoses in the center of the head for better suction — allowing you to clean along edges without hitting hoses
- Comfortable and ergonomic hand grips
- Conveniently located vacuum relief is mounted in the handle so you can easily adjust air flow without bending over
- Stainless steel handle
- Highest quality ceramic swivel is repairable
- The Revolution's handle folds to 180 degrees so you can clean under a counter or overhang as low as 6 inches
- There are no parts or hoses protruding from the sides or the front, so you can clean under overhangs without catching on furniture or fixtures
- T-style handle allows side- to-side as well as front to back operation
